1. INTRODUCTION

Authors are request to read the instructions carefully. Authors are responsible for all the material presented in the papers.

The paper may be submitted electronically in MS word document format.

2. LITERATURE REVIEW

This document serves as the template as well as guide to authors for submission of paper in Scientific Journal (TSJ).

The paper must be with page size of A4. Body of paper should be formatted in one column, with 0.75 cm each at top, bottom, left and right margins. Use Bookman Old Style font justified on both sides. However the headings must be bold.

2.1 PARAGRAPH

The first line is to be indented 0.4 inch to indicate the beginning of each paragraph. Do not change your font sizes or line spacing, and try to avoid headers, footers and footnotes. The reference should be mentioned by author names and years (Sohu, 2022) for single author. In case of two authors, the reference will as (Sohu & Shamsi, 2022) and if the number of authors is more than two, then the reference will be as (Sohu et al. 2022). For multiple references, the reference should be separated by (;) and it should be used as (Sohu et al. 2022; Shamsi, 2022).

2.2 FIGURES AND TABLES

All figures must carry numbers in the text (e.g. Fig. 1) and captions. Captions should be complete enough to allow understanding of the illustration without referring to the text. In addition, a source of the image other than the author's own archive should be placed directly under the image (author, date) and the font size by 1pt smaller than the caption. Use single blank lines before and after the image.

If table data is from another source, cite the source at the bottom of the table and include it in the Reference Section (see example). Each table should be given a brief title and consecutively numbered. Place them as close as practicable to the relevant part of the text. Insert single blank lines before and after the table. Avoid using colors unless it is necessary for the proper interpretation of your figures.

Table 1: Population of the World (centred on the page)

Rank	Country	Population	Date of Estimation	% of world population
